Tech o con Discussion

Attending: Alaina, Alysha, Mark, Bill, Suzanne, John Wilson

- CCD Report -- Arrived today, Joe will look at it in a couple weeks.
- Filter set arrived and looked good. Do we want the Johnson set? Do we want to see these on sky first?
  - The Sloan set got here pretty quick, so we can afford to wait and see how these fit the wheel before ordering.
- Don York may have a narrow band set for us to use as well.
- Cart design comments
  - Seems comparable with DIS cart
  - Russet needs the cart to be lower for filter change position. Bill clarified thatit will go 4-5" lower and should be ok, but can clarify with Joe.
  - Cranking all the way down would take several turns, so will also discuss with Joe.
