

ARCTIC Tech-o-con discussion

Attending: Fritz, Nick, Joe, Alaina, Alysha, Russet, Bill, Suzanne, Russell, Conor, John Holtzman, Jack, John Wilson, Mark

- All three vendors can give us good verification of our specs.
- We got a good reference for Cosmo.
- Drawing details -- Joes should add a few details, as requested by the vendors.
 - Try looking at the U of A website for some good ideas.
- Of the three quotes, Cosmo is the lowest and seems the best. They contract to an outside vendor for coating.
 - Once Joe gets the final details, we tentatively approve going with Cosmo.
- Our CCD was tested today, and then sent to Lesser for final testing. We hope that it will be delivered to Leach around the time that he wiring is finished.
