

## ARCTIC telecon

---

Attending: Joe, Bill, Russell, Conor, Suzanne, Alaina, John Wilson

- Filters
  - Any shape, as long as they are 5.25"
    - Joe wants to minimize the filter size. Will need to ask for new quotes, because the old ones expired.
    - Will also get quotes for a Johnson-Cousins set.
  - Filter wheel -- is there a max thickness? Something like 1" which is pretty big.
  - Main concern is counterweighting a heavy filter wheel.
  - Should have everything ready to order in January.
  - Suzanne says order the Sloan set, and get JC later.
- Optics
  - John Wilson says he hasn't looked things over yet but go ahead and get the order going.
  - Will order on Thursday.
- Metrology
  - Joe sent around plots showing health of the instrument in the lab.
  - Regulates to 165.
  - There is one outlier to keep an eye on.
  - Joe says the ion pump has been stable.
- ICC Outline
  - Joe likes the outline from Russell
  - Filter wheel/changes should be included.
- Next meeting -- one week Monday (11/24/14)
